Bouygues-Thai is Bouygues Construction's subsidiary in Thailand. Bouygues-Thai Ltd. was incorporated in Thailand in 1990. As part of Bouygues Construction, Bouygues Thai has the full technical and financial support to handle complex, large scale projects. Bouygues Construction is an international player in the building, civil work, energy and services market. Operating on every continent, it has recognized expertise at every stage of a project, from financing and design to construction, operation and maintenance. Its 53,500 employees develop effective and innovative solutions to carry out projects that enhance quality of life for all, building hospitals, schools, housing, stadiums, transport infrastructure, and high-speed networks. Bouygues Construction places social and environmental challenges at the heart of its development strategy, with the aim of leading the way in sustainable construction. Bouygues-Thai has been a global player in the local market of Thailand for 25 years. At present, Bouygues-Thai Ltd. has total staff of 2,414 consisting of 44 managers, 80 engineers, 232 supervisors, 186 office staff and 1,694 highly trained workers. The expertise of Bouygues-Thai concentrates on High end, High rise Condominiums, Hospitality buildings, Malls, Exhibition and Convention Centers, High end Offices, Mass Medium In come Condominiums and Renewable Energy such as solar plants. Its scope of work can be large as a general contractor for build-only projects, Design & Build contractor, EPC contractor. Bouygues-Thai Ltd. is recognized for its experience in high quality projects and has developed a strong reputation for quality and reliability with a successful track record of delivering its projects to completion. The company strictly adheres to the principles and values developed by the Bouygues Group (Ethical & Practices, Client satisfaction, Employees satisfaction and Professionalism). Innovation is always at the top of our agenda, from design and finance to construction and operation, we are constantly striving to make every project more efficient, safer, faster and more satisfying to our clients.
